PRESS RELEASE

Construction Software Developer Foundation Software Among *Plain Dealer's* Top Workplaces 2010

June 25, 2010, Cleveland – For Immediate Release: Foundation Software Inc., developer of the award-winning [FOUNDATION® for Windows® construction accounting software](#), has been selected by the *Plain Dealer* as one of Northeast Ohio's best places to work. The newspaper's Top Workplaces 2010 list ranks the top 75 employers in the region based on an exhaustive employee survey conducted by WorkplaceDynamics. The survey measures employee satisfaction based on factors such as company leadership, compensation, training, workplace flexibility and diversity.

Although Foundation Software has won numerous regional "best company" awards in recent years, for company founder and CEO, Fred Ode, this recognition is especially satisfying. "Of all the awards Foundation Software has won," said Ode, "the ones that focus on employee satisfaction are the ones that mean the most to me."

Company President, Mike Ode, echoed that sentiment saying, "This award is a great source of pride for us. Knowing our employees consider Foundation Software among the best companies out there affirms our philosophy of appreciating and rewarding our people. It's a win-win for us."

The Top Workplaces 2010 rankings and overall results were showcased in a special section of the Sunday, June 20, 2010 edition of the *Plain Dealer*.
