Below are the system requirements for **FOUNDATION SaaS®** construction accounting software. FOUNDATION SaaS is compatible with Microsoft® Windows® (32-bit and 64-bit).

RECOMMENDED DEVICES

A laptop or desktop running one of these supported operating systems:

☐ Microsoft Windows 7 SP1 Professional or Enterprise

☐ Microsoft Windows 8.1 Pro or Enterprise

☐ Microsoft Windows 10 Pro or Enterprise

☐ OS X® 10.9 or later

* Foundation Software does not support the configuration or compatibility

of tablets, smartphones and other devices with FOUNDATION SaaS.

SOFTWARE FOR DEVICES

FOUNDATION SaaS uses Microsoft RemoteApp and requires the latest version of Remote Desktop.

INTERNET RECOMMENDATIONS

FOUNDATION SaaS requires a broadband Internet connection of at least 3 Mbps down and 1 Mbps up per user.

ADDITIONAL SPECIFICATIONS

- Microsoft Office® 2010 32-bit edition if using Outlook® Plugin (optional)
- FOUNDATION SaaS is compatible with laser printers only.
- Chromebook™ notebook computers by Google are not compatible with FOUNDATION SaaS.
- Please contact Foundation Software before converting to FOUNDATION Saas if you use Microsoft Excel® or other third-party applications to query data from the FOUNDATION database.

Note: We recommend that your IT professional be present during the conversion to FOUNDATION SaaS.
