Procore + Foundation Software Integration

Bridge the gap between field and office

All your financial data, right where you need it

Foundation Software has partnered with Procore to integrate two of the industry's best-of-breed products. Now FOUNDATION and Procore clients can seamlessly share related data between projects and vendors, or push information like cost codes, budgets and more from one system to the other.

Streamline Costing and Billing

Review up-to-date cost reporting in Procore with full AP Invoice Images directly from FOUNDATION.

Centralize Data

Create a single source of truth for your data syncing Cost Codes, Budgets, Change Orders and more, all in real-time.

Save Time

Reduce time-consuming errors by eliminating double-entry. Sync necessary financial data right from the field to the office, so your team can back to what they do best.

Synchronize Teams

Seamlessly transfer data quickly and remotely to improve workflow and communication between field and office.

PROCORE®   **∧FOUNDATION software**

PROCORE		FOUNDATION
Projects	⟷	Jobs
Budgets	⟷	Budgets
Companies	⟷	Vendors
Cost Types	⟷	Cost Classes*
Divisions	⟷	Cost Code Groups
Cost Codes	⟷	Cost Codes
Departments	⟷	Departments*
Company Users	⟷	Employees*
PO/Sub Commitments	→	PO/Sub Commitments
Change Orders	→	Change Orders
Direct Costs	←	Direct Costs

**Employees, Departments and Cost Classes must be created in Foundation Software before data can be shared between solutions.
