

# Streamline payroll processing

## Time data integration

Save time and eliminate errors caused by manual entry by importing time card data from Raken directly into FOUNDATION.

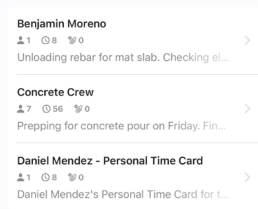

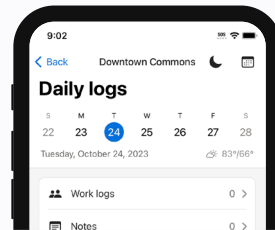

## Collect better field data

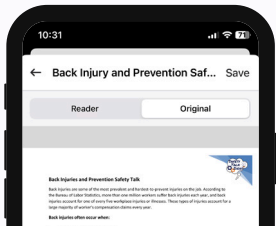

## Jobsite progress

Field crews can share updates straight from the jobsite using photos, videos, and notes compiled into PDF daily reports.

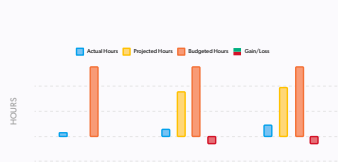

## Field productivity

Keep track of productivity by logging labor hours (including overtime), materials installed, and heavy equipment on-site.

## Safety and quality

Maintain safety compliance with custom checklists, observations, and a library of toolbox talks with digital sign-in sheets and topic scheduling.

**Production Stats**

0 Budgeted Hours	208 Actual Hours	-208 Remaining Hours
0 % Completed Hours	208 Projected Total Hours	0 % Completed Quantity
	-208 Projected Hours Gain Or Loss	

## Insights

Gain better visibility into the field with real-time insights to ensure projects are on-time and running smoothly.
