

Mobile App(2.x.x)

Although the mobile app may work with operating system versions lower than what is listed below, you may experience performance or other issues. The list of devices below are “recommended” for the best experience.

Recommended Mobile Devices

Apple

- iOS 13 or above

Android

- OS12 and above
- Snapdragon 600 or higher
- 4 GB RAM+

Brands

- Apple
- Samsung
- Google
- Motorola

Recommended Laptop/Desktop

Recommended Laptops and desktops for ConnectMax

- PC: Windows 10 or above
- Apple: MacOS 10.14 or above
- 8 GB RAM
- Storage: Minimum of 2GB free
- Quad core + processor

Recommended Browser

Google Chrome and Microsoft Edge are the preferred browsers for using WorkMax. It's also recommended to keep your browser up-to-date.

Recommended Server

WorkMax uses ConnectMax to connect to your accounting database in order to sync your employees, locations, tasks and assets to the WorkMax Control Center. If your accounting database resides on a server, we recommend the following server specifications.

- Windows 10 server or later with latest security updates
- 8 GB RAM
- At Least 2GB free storage
- Quad core + processor
